

## Style

MuffleMat

## MuffleMat

**MuffleMat** is a gym tile can be used for both residential and commercial gyms to reduce impact noise. The tiles are perfect to place on the floor area where weights are being used. When weights are dropped on this surface, the impact noise is reduced and therefore helps with noise control within the space and sound transmission out of the space through the structure.

### Advantages:

- Easy to handle
- Offers sub-floor protection
- Manufactured from recycled materials
- Can be loose laid or bonded

# Product Specifications

## Weight

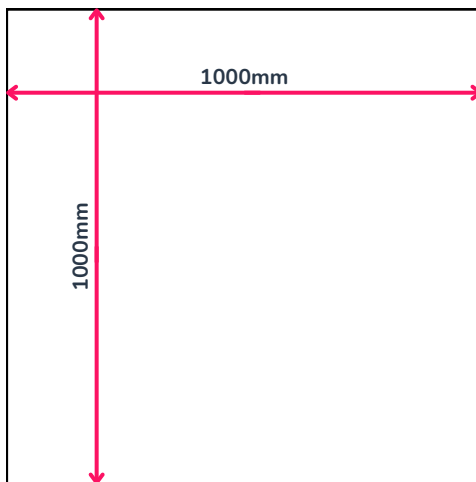

MuffleMat weighs 14.25kg (+/-1%)  
Density- 950kg/m<sup>3</sup> (+/-1%)

## Environmental

No production waste is land filled – all off-cuts and remnants are re-processed
